

15 Questions To Help You Choose the Right Cloud Printing Solution for Your Company

Many businesses are thinking about moving their printing to the cloud. Before you do, there are 15 questions you should ask yourself to find the right solution for your business.

	ezeep	Other solution
Does your solution offer an easy way to deliver print jobs to offices, factories, warehouses, clinics and other locations without having to manage printing on local computers or rely on print servers?	✓	
Can your solution print from any Windows, MacOS iOS, iPadOS, Android or Chrome device?	✓	
Is your solution suited for zero-trust environments?	✓	
Can your solution seamlessly support on-premise and cloud applications?	✓	
Does your solution offer APIs for easy integration with SaaS apps?	✓	
Can your solution be integrated into proprietary web apps easily?	✓	
Can your solution eliminate the need for VPN connections?	✓	
Can it run on any cloud platform without any on-premise print infrastructure dependencies?	✓	
Would the solution be able to connect to your current on-premise print management system if necessary?	✓	
Does your solution offer secure release printing that allows users to pick up their jobs anywhere in your environment?	✓	
Can your solution support label printers?	✓	
Does your solution offer a simple way to support Hybrid Work scenarios including Home Offices?	✓	
Does your solution provider offset the carbon footprint of your printing as part of the solution's price?	✓	
Does your solution support multi-tenant setups for complex company structures or MSP offerings?	✓	
Does your solution have partnerships with Microsoft, VMware, Citrix and the leading printer manufacturers?	✓
