

Connect your space's or school's printers to the cloud

- › One device to connect all your users and printers
- › ezeep will help to Configure & Maintain the Connector
- › All-Round Care with ezeep Managed Account Services

* actual product design may vary

The ezeep Connector for CoWorking & Education is the easiest way to connect members, staff, or students with their printers:

One device to connect all your users and printers

- › Printer drivers are only necessary for the connector, not for users
- › Easy configuration and maintenance, no technical expertise needed
- › No firewall or network configuration needed
- › No upfront investment

ezeep will help to Configure & Maintain the Connector (30 min included with subscription)

- › Detecting printers on the network
- › Installing printer drivers and printer queues
- › Installing the ezeep Connector and verifying its correct functionality
- › Installing ezeep Connector for Coworking & Education security updates

All-Round Care with ezeep Managed Account Services

- › Let ezeep manage, monitor, and maintain your ezeep services and save you time and effort
- › ezeep ensures your cloud printing environment is always up-to-date, allowing your users to print easily
- › ezeep Connector for Coworking and Education maintenance included
