ezeep

Enjoy the Ease of Cloud Managed Printing

Let the cloud manage your printers and printing to save time and money.

Never worry about printing again – we manage your printers so you can manage your business

The world's leading print management software for coworking spaces, business centers and virtual offices is even stronger – ezeep is backed by ThinPrint and their 15 years plus of enterprise-printing experience.

When it comes to printing – save time, money and frustration

Never install another driver, or have to assist customers with printing – ever. Employees, customers and guests connect to the printer most convenient to them on their own – even from tablets and smartphones.

Whatever your working space – printing is simply better with ezeep

ezeep makes printing manageable, intuitive and less of a pain for you, your customers and employees. If you do need help, our global service team is just a phone call away to solve any issue fast and for good.

Full and flexible control of printing

Set up printing rules, limits and even prices for users, groups and printers. ezeep manages everything for you, including a simple, automated and secure pay-per-page payment system for your customers.

Intuitive design and tools

As it is designed for people, printing with ezeep is intuitive and trouble-free. You no longer have to spend hours resolving "print spool error" or other arcane problems and are free to focus on more important tasks.

Analyst Recognition

Gartner and IDC praise

ezeep was named by analysts Gartner as a Cool Vendor in its Imaging and Printing Services Report and also by IDC for its simple, customer-oriented approach to printing that reduces overhead and allows better cost control.

What businesses say about ezeep:

ezeep is the fastest and easiest way to manage printers and users. When Freeland's coworkers ask me how they can use the printer and I tell them it's as easy as accepting an invitation, they are amazed by just how simple the whole process is. ezeep is a great product to show that my coworking space has the best tools to meet the demands of new ways of working.
